

# From 4-seater to 9-seater.

**Seating packages.** The versatile seating options in the Caravelle provide maximum flexibility – a selection of possible configurations is shown here. And the Caravelle still provides plenty of room for change once you have selected a seating package. A modular attachment system<sup>1)</sup> makes it extremely easy to remove, position and swap seats. The seating packages differ in both the number and type of seats. There are 3-seater and 2-seater bench seats and single seats.

• 4-seater package 4

Luggage compartment length: 1,600 mm<sup>2), 3)</sup>  
Luggage compartment length: 1,967 mm<sup>3), 4)</sup>

Luggage compartment length: 298 mm<sup>3), 4)</sup>

**Easy Entry function.** Single seats by the sliding doors always have an Easy Entry function to ensure that the third row of seats is easily accessible.

**Long wheelbase.** 400 mm<sup>3)</sup> more room for luggage or a fourth row of seats.

1) The modular attachment system comes as standard or as an optional extra, depending on the seating package. 2) In the short wheelbase vehicle. 3) Measured at floor height in the passenger compartment. Please note that the values are approximate and that the dimensions may vary due to production tolerances. 4) In the long wheelbase vehicle. 5) With two sliding doors and Easy Entry function on both sides. The illustrations show the long wheelbase vehicle. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.
